Here's a tailored **Job Description for a Data Scientist (Fresher)** role—perfect for entry-level candidates just starting out:

Job Title: Data Scientist – Fresher
Department: Analytics & Insights
Location: Hyderabad, India
Job Type: Full-Time

🧠 Job Summary

We are seeking a passionate and curious Data Scientist to join our analytics team. This entry-level role is ideal for recent graduates who are eager to apply their academic knowledge to real-world data challenges. You'll work closely with senior data scientists and business analysts to uncover insights, build models, and support data-driven decision-making.

📌 Key Responsibilities

- Assist in collecting, cleaning, and organizing data from various sources

- Perform exploratory data analysis (EDA) to identify trends and patterns

- Support the development of basic machine learning models and algorithms

---

🎯 Requirements

- Bachelor's degree in Data Science, Computer Science, Statistics, Mathematics, or related field

- Strong foundation in Python or R, and familiarity with libraries like pandas, NumPy, and matplotlib

- Basic understanding of machine learning concepts and statistical analysis

- Knowledge of SQL and data querying techniques

- Good communication and problem-solving skills

- Eagerness to learn and grow in a fast-paced environment

💼 Preferred Skills

- Internship or academic project experience in data analysis or machine learning

- Exposure to tools like Jupyter Notebook, Google Colab, or Tableau

- Familiarity with cloud platforms (AWS, Azure, or GCP) is a plus

- Certification in data science or analytics is an advantage
